DIVYANSH CHHABRIA

Junior Undergraduate, Department of Computer Science and Engineering
divyanshc21@iitk.ac.in | +91-9399258709 | divc13 | Divyansh Chhabria | divc13.github.io/divc/

Academic Qualifications

Year	Degree/Certificate	Institute	CPI/%
2021 - Present	B.Tech.	Indian Institute of Technology Kanpur	9.50/10
2021	Class XII (CBSE)	Vindhyachal Academy, Dewas (M.P.)	95.8%
2019	Class X (CBSE)	Vindhyachal Academy, Dewas (M.P.)	97.4%

Scholastic Achievements

- Received **Academic Excellence Award** based on academic performance for **two consecutive years** *(2023, 2022)*
- Secured **1st position** across the **nation** in **India Terminal 2023** conducted by **Correlation One** *(2023)*
- Secured **AIR 548 (CRL)** in **JEE Advanced 2021** and **AIR 1237 (CRL)** in **JEE Mains 2021** *(2021)*
- Qualified and recognized as **Madhya Pradesh State Topper** in **NSEC** & **NSEP 2021** by **HBCSE** *(2021)*
- Qualified **NSEA 2021** conducted by **IAPT** by securing a place among **top 250 candidates** nationwide *(2021)*
- Received **KVPY Fellowship** for **2 consecutive years** in **2021** and **2020** awarded by **IISc Bangalore** *(2021, 2020)*
- Awarded the prestigious status of **NTSE Scholar** in **2019** by the **NCERT** among 1 million candidates *(2019)*
- Qualified **Regional Mathematics Olympiad 2019** securing a place among **top 30 candidates** from M.P. *(2019)*
- Qualified **Senior** & **Junior Science Olympiad** by **MPCST Bhopal** with **state rank 11** & **6** respectively *(2019, 2017)*

Key Projects

Unified Portal for Hall Automation *(Jan'23-Apr'23)*
Course Project, Software Development & Operations, under Prof. Indranil Saha, CSE IIT Kanpur

- Collaborated in a **10-member team** and developed a software for **digitalizing mess, canteen operations, bookings,** and **housekeeping services** in the **halls of residence** at **IIT Kanpur**, enhancing transparency and minimizing paperwork
- Followed **waterfall model**, documented **requirement specifications, design, implementation, testing, user manual**
- Employed **Figma, HTML** and **CSS** for frontend development, **Django Framework** for backend development, **Django-Test Framework** for **unit-testing** and **Selenium** for **integration-testing** attaining **test coverage** greater than **90%**

CSE Bubble Course Project, Computer Organization, under Dr. Urbi Chaterjee, CSE IIT Kanpur *(Mar'23-Apr'23)*

- Built **CSE Bubble processor** having **ISA** similar to **MIPS** with **single-cycle instruction fetch, decode and execution**
- Designed and implemented the **Arithmetic Logic Unit (ALU)** in **top-down approach** to develop different **modules** for **R-type, I-type & J-type instructions** and the **finite state machine** for the **control signals** to execute the CSE Bubble
- Developed **MIPS code** for **Bubble Sort** algorithm, translated to **machine code** following the **ISA** & executed the processor

Uncovering the Mask of XORRO *(Jan'23-Feb'23)*
Course Project, Introduction to Machine Learning, under Prof. Purushottam Kar, CSE IIT Kanpur

- Gave a **mathematical derivation** and showed that a simple XORRO PUF can be cracked using a **single linear model**
- Extended the **linear model approach** to break down an Advanced XORRO PUF composed of 16 XORROs by utilizing **mathematically derived complete** & **consistent 1040-dimensional feature vectors** from **72-bit challenge vectors**
- Achieved remarkable train accuracy of **99.82%** and test accuracy of **99.2%** using the **LinearSVC model** with **L1 penalty**

Deep Learning Specialization (Self Project) *(Nov'22-Jan'23)*

- Learnt **L2** & **dropout regularization** techniques, **hyperparameter tuning**, **batch normalization**, & **gradient checking**
- Implemented **optimization algorithms** such as **mini-batch gradient descent**, **Momentum**, **RMSprop** and **Adam**
- Applied **end-to-end learning**, **transfer learning**, and **multi-task learning** techniques to address complex ML scenarios

Animating Concepts Using Python (Mentor: Dr. Raj Dandekar, Ph.D., CSE department, MIT) *(Oct'22-Nov'22)*

- Utilized **Manim library** of **Python**, for creating informative **visual representations of mathematical concepts**
- Created **30+ animated concept videos** on **Trigonometry** and **Surface Areas & Volumes** for in-depth **visual learning**

Unmasking Competitive Programming (Association of Computing Activities, IIT Kanpur) *(Jun'22-Aug'22)*

- Acquired knowledge of competitive programming essentials, like **binary search**, **DFS**, **BFS**, and **dynamic programming**
- Gained proficiency in **C++ STL** to streamline coding processes and optimize solutions in **competitive programming**

Learning Biology through Case Studies of Discoveries *(Aug'22-Nov'22)*
Mentor: Prof. Ashwani Thakur, Biological Sciences and Bioengineering, IIT Kanpur

- Reviewed and **summarized research papers** by Nobel Laureates on **genetic information transfer** and **DNA replication**
- Studied **decoding of genetic code** through **articles**, **research papers**, & **transcribed interviews** by renowned scientists

Technical Skills

Programming: C, C++, Python, Verilog HDL, MIPS Assembly Language **Web:** Django, Javascript, CSS, HTML
Utilities & Frameworks: Numpy, Pandas, Matplotlib, Seaborn, Manim, Figma, QtSpim, Selenium, Git/GitHub, Bash, LaTeX
